

This sign is the most important part of the project; the number of people who have helped The Field Trip. On shoottheball.net, we have a list of all of the people and the one elephant that have shot THE BALL. No names this time however we will try to keep track of the number of people that help out in some way. This includes someone who sponsors us, sends us a helpful or inspiring e-mail, someone who gives us a good idea to help the project or a helpful hint while visiting a city/town. It is going to be pretty hard to record all of these individuals so the number you see on the sign is the bare minimum.

Message - *The Field Trip is not us against the world.*
